

edible plastic brings to you

the plastic toy

this software is about the people who have who I have thought about suff with about the web warnambool crazies.. ... melbourne crew. csearchdays.eclipseyear.s ..citruscrew, from oli, from the start of the drumnbassdays.99 neil,doug,damnda,mark,pete through the toybox fresh ways. v.000a developed. and introduced. on to smoking glenn m, coming from old school work days. made it work. :) once to amsterdam version 0.2. then back to melbourne now brings me here. auckland.to another thought. to webmedia and the nu school KOG. and this is why the software comes to you.

this is the tool i've used on every ocssion that i have vjed. its not the only thing you should use, but it can be done. my trip is being a designer working witha video jockey.

READ ON WONT YOU.

not vjing
any mac or pc (me, well im a mac kid)
flash 5 free player

vjing
dedicated machine
flash player, maybe 80-100 mb RAM.(more the better)
S-VIDEO out.
and a extensions set with sweet fuck all running.
monitors, smaller resolution the better, i'd recommend
800x600 at thousands of colours

and you know flash runs like a pig when you use
alpha channels, its your funeral if you do. ;)

s u p p l i e d

i've supplied one set of animations upper and lower.
but if your like me and have flash 5
you can create you own.

plus you'll need to for SET2.

just save the .swfs like thus.
SET2_a.swf (lower)
SET2capA.swf (upper)
for all the letter keys
and save them in the plastytoy cripplwarev 0.7 folder.

if you want the privledge of more sets, please contact me

vj@edibleplastyc.com.

IDEA, TO COMMUICATE IDEAS. visuals not words.

SO if you wantto jam your visuals globally with others, this is the median..

feel free to email your SET2's.... ill include on

www.plastytoy.com

so inspire soome dreams.

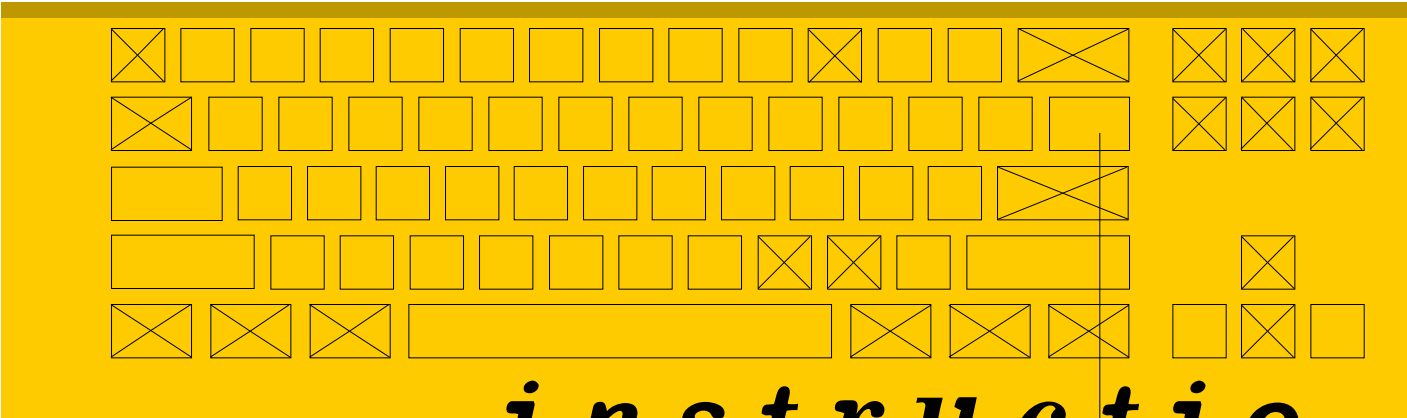

the rest of this document is about what the tool does...
